SEP 29 1950
U. S. Department of Agriculture

CAMELLIA GEORGE B. BARRETT

(Plant Patent No. 866)

This seedling is a large, pure white, loose semi-double, which blooms early, and has a few golden stamens scattered among the petals and petaloids. Its early blooming habit, which assures successful flowering, makes this variety unique. This together with its beauty as a cut flower is producing a large demand for this variety.

SIZES AVAILABLE

1 YEAR GRAFTS, 4 YEAR UNDERSTOCK		
12-15 Inches	\$10.00
15-18 Inches	15.00
18-24 Inches	20.00
2 YEAR GRAFTS, 6-8 YEAR UNDERSTOCK		
\$20.00—\$30.00		

NOTICE TO CUSTOMERS

On account of Camellia Flower Blight having been found in one section of Orton Nursery, we are complying with Department of Agriculture regulations and shipping our Camellia plants balled and burlapped in imported peat. The lightness of the peat moss reduces considerably the cost of transportation and all plants sold have our usual guarantee.

This does not include 1 year Camellia grafts, which are growing some distance away at our other nursery.

The following varieties of **Camellia japonica** are available
in the sizes indicated.

RARE VARIETIES:

All plants are own-root unless
otherwise listed.

ANNIE GRAY	6-12 in., 12-15 in., 15-18 in., 18-24 in.
ARAJISHI	1 yr. grafts @ \$7.50

BUSINESS TERMS

Cash or satisfactory reference must accompany order for immediate shipment. Orders booked for future shipment 25% deposit, balance due upon delivery of plants. **No orders accepted to be crated and shipped for less than \$5.00.** Crating at cost. Checks made payable to Orton Nursery.

Customers are requested to give definite instructions for shipping. In the absence of special instructions we will use our own judgment.

We make no substitutions unless requested. Please state whether we may substitute if out of stock ordered. This often precludes additional correspondence.

Our liability ceases upon delivery of nursery stock properly packed and accepted by public carrier. All claims must be made within 10 days after receipt of stock.

Our stock is properly grown and dug with a compact root system. It is regularly inspected by North Carolina State Department of Agriculture officials, and is apparently free of injurious insect pests and plant diseases.

GARDEN AND CIVIC CLUBS

are invited to avail themselves without charge of a beautiful 16mm sound and color film of Orton Plantation by the well known professional photographer, Mr. Tom Draper who spent a week at Orton on this undertaking. The gardens are shown in full bloom and additional interest is afforded by views of the ruins of St. Philip's Church and other outstanding spots on the historic Plantation. Harmonious music and voice commentary add their attraction to the brilliance of the color effects and provide eighteen minutes of unusual entertainment. We will be pleased to send this film direct from Orton Plantation if so requested. Any experienced operator with a sound projector can show this film.

CHRISTMAS BOXES

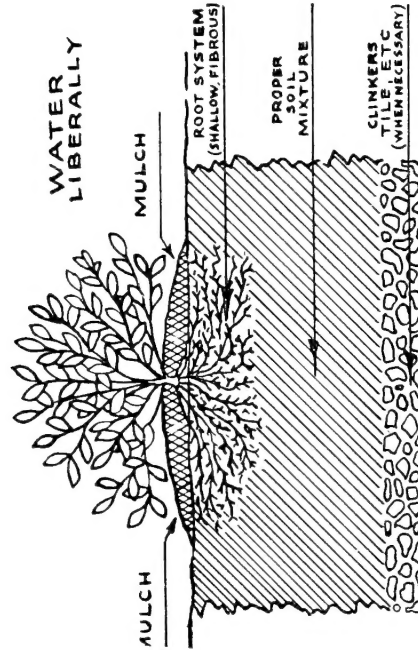

Christmas boxes of Long Leaf Pine boughs and cones, Spanish Moss, Southern Smilax, Magnolia Branches, Yaupon, Holly and other red berried decoratives when available shipped anywhere east of Mississippi river. These boxes make a most acceptable and timely gift at Christmas. Box size: 36 x 15 x 6 inches. Price \$4.50 delivered.

ORTON PLANTATION GARDENS

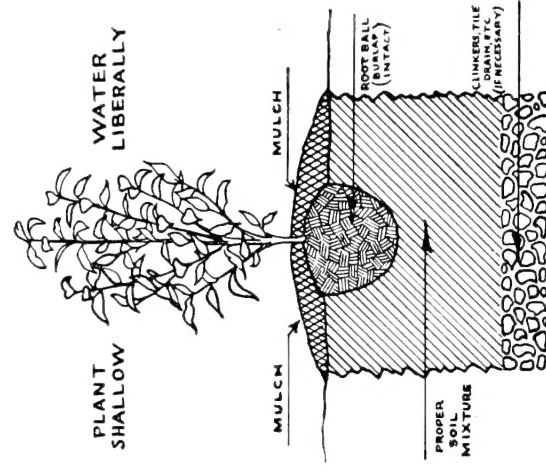

Plan to visit the magnificent display of Camellias, Azaleas and many other flowering plants in the Gardens of Historic Orton Plantation during this season. Orton is open daily year 'round.

PLANTING AND CARE OF CAMELLIAS AND AZALEAS

Select a **well drained location** (preferably in **semi-shade**), and in cold climates where it is shady until about 11 A. M. Dig hole twice as wide and 1½ times as deep as root ball. Mix thoroughly 1 part well-rotted stable manure and 2 parts leaf mould or peat moss, and 1 part top half of soil from hole, if free from lime or mortar. Discard bottom half. Fill hole with mixture, pack and **set plant shallow**, so that it will be no deeper than in the nursery. Leave burlap intact. **Mulch liberally** with pine straw, leaves or grass clippings. **Water thoroughly.** Fertilize after blooming season with azalea and camellia special and/or cotton seed meal. Water at least twice a week in hot dry weather, preferably in late afternoon.

Azalea Properly Set

Camellia Properly Set
